Welcome to Dieffenbacher!
Safety Information for Visitors

General Information for Visitors

Please read the safety information carefully and observe the instructions therein. Thank you.

On arrival

- Please only park in designated visitor parking spaces; parking in these spaces is done so at your own risk
- Please report to reception where you will receive a visitor pass and will be met and escorted by your contact

During your time at the site

- Please wear your visitor pass and ensure it is clearly visible at all times
- Please do not remain at the site longer than the time it takes to complete your work; visits are only permitted when accompanied by our employees

- Photography and filming are expressly forbidden at the site

- Traffic regulations apply at the site and a maximum speed of 20 km/h must be observed

- Please always keep fire lanes, entrances, and exits free of obstruction

When leaving the site premises

- Your contact will bring you back to the reception so you can sign out and return your pass
- Site security personnel reserve the right to perform random checks on people, bags, and cars

Rules on Company Premises

- Use the specified personal protective equipment
- Safety shoes must be worn outside of the marked transport routes and for loading work
- Ear protectors must be worn in marked noise areas
- No smoking is allowed except in designated smoking areas
- Be aware of internal site traffic and overhead loads; take care when crossing routes
- Machines, plants, materials, and media may not be touched without the appropriate training and permission of appropriate Dieffenbacher personnel
- Please always observe the safety and information signs and do not leave the marked routes on your own under any circumstances
- In some areas, active medical implants may malfunction (I.E. cardiac pacemaker, insulin pump) as a result of electric and magnetic fields
- The site premises are under continuous video surveillance

External suppliers, please observe the following:

- All regulations for third-party companies must be followed
- Written approval is needed before performing any work requiring special permits (I.E. welding)

Safety rules in the event of emergencies

- Leave the building via the emergency routes; help disabled people and help those in need of aid
- In the event of a fire, do not use the elevators
- Protect the emergency routes from smoke; close the doors immediately
- Obey the instructions of the fire marshals
- Make an emergency call and inform reception on +49 7262 65-0
- Locate the assembly points
